           Kitten shall not be sold, leased, given away, abandoned to a shelter, pound, pet shop, research laboratory, humane organization, or any similar facility. If Purchaser is unable to care for the Kitten, Purchaser shall notify the Seller immediately. Purchaser shall use all reasonable effort to rehome the Kitten and Purchaser shall provide details (in writing) of Kitten's new owner to the Seller. Buyer is responsible for sending vet documentation to Breeder (Fluffy Tufts) to receive TICA Papers from Breeder (Fluffy Tufts). Buyer is responsible for submitting registration papers to TICA. Buyer is responsible for all TICA registration Fees.

\_\_\_\_\_ Seller makes no guarantees as to the Kitten's temperament. We pride ourselves on socializing our kittens, but we cannot predict how the Kitten will act after it leaves the familiar environment of our cattery and its littermates. It is Purchaser's responsibility to slowly transition Kitten to its new home. Purchaser acknowledges that some kittens may take longer than others to adjust to their new surroundings. Purchaser must notify Seller immediately if kitten is not transitioning well into its new home (e.g. not using the litterbox, has diarrhea) so that Seller is made aware of any issues. If Purchaser has any health or behavior concerns about the Kitten, Purchaser must notify Seller of its concerns immediately. We cannot help you with these concerns if we are not aware of them. If more than 2 weeks have passed before Purchaser notifies Seller of these issues, Seller disclaims any liability of responsibility for these issues.

\_\_\_\_\_ Seller warrants that Kitten was fully litterbox trained when Kitten left Seller's premises. However, the new surroundings may confuse the Kitten and may result in improper elimination. Purchaser needs to ensure that Kitten knows where its new litterbox is located, and Seller recommends that Purchaser use the same type of litterbox and litter used at Seller's premises, to avoid confusing the Kitten.

\_\_\_\_\_ Purchaser agrees that it will feed Kitten the same food that Kitten was eating at the Seller's premises, and any changes to the Kitten's diet will be done gradually. Any sudden changes to the Kitten's diet may result in diarrhea.

\_\_\_\_\_ Purchaser shall take Kitten to Purchaser's veterinarian at least once every 12 months for annual physical examinations. Purchaser needs to ensure that a full physical examination (including, but not limited to, an eye exam, ear exam, auscultation) is undertaken. Purchaser shall make all reasonable efforts to keep in contact with the Seller, and keep Seller updated on Kitten's health.

Purchaser agrees never to vaccinate this Kitten against FIP (Feline Infectious Peritonitis). The effectiveness of the vaccine has not been established and the vaccine can cause the disease.

Failure to comply will void all health guarantees.

This health guarantee does not cover coccidia outbreaks. When a kitten goes into its new home, this can sometimes result in diarrhea/loose stools a few days after arrival. This is typically caused by the parasite coccidia. This is not a congenital problem and is not covered by our health guarantee. If your Kitten has loose stools, we recommend that your vet prescribe Albon for the Kitten. Please follow your vet's guidelines for dosage.

This cat/kitten is guaranteed against congenital defects inherited by the parents and HCM for the first 12 months (Congenital Defects) and for the first 2 years (HCM) from the purchase date of the cat. showing the congenital defect being the direct result of the cause of death is produced. All veterinary expenses and return shipping-related expenses are the responsibility of the Purchaser.

Multi-cat households: Seller's guarantee only covers the health of the Kitten. If Purchaser has a multi-cat / multi- pet household, and your other pets come down with health issues after Kitten is introduced, Seller, is not responsible for any veterinary expenses for your other feline(s) and pets, as we are not responsible for their health. Similarly, if Kitten comes down with health issue(s) after its introduction to the multi-pet household, we will be responsible only if your vet certifies, in writing, that Kitten's health issues are congenital issues. It is Purchaser's responsibility to ensure that existing felines are up to date on all vaccinations and have been regularly checked by your veterinarian prior to introducing them to Kitten. It is Purchaser's responsibility to quarantine Kitten for at least fourteen (14) days of receiving the Kitten, if Kitten is going to a multi-pet household. Unless otherwise agreed to by the Seller, in writing, this provision of isolating the Kitten for at least 14 days is a strict requirement and Purchaser will void all health guarantees under this contract if the Kitten is not isolated for at least 14 days.
